

## Greenhouses (tunnels)

Greenhouse tunnels can be used for all kind of crop, they are easy to erect and the curved walls make the construction simple.

The front end of the greenhouse we can supply with sliding doors or with 90° doors opening to above.

The tunnels can be supplied with transparent or opaque films. We can also include roll up side ventilation.

	9,30 mtr.
	± 3,40 mtr.
	2,00 mtr.
	tot/to/bis/à 100 mtr.
